AUTONOMOUS AI OPERATIONS

CaseGlide Agent Architecture

A multi-agent AI system orchestrating sales, marketing, platform development, and process optimization — designed for maximum revenue with minimal executive overhead.

CHIEF EXECUTIVE OFFICER

Wes Todd

Attorney & CEO, CaseGlide LLC

REPORTS TO · ≤1 HR/DAY

CHIEF OF STAFF — AI AGENT

Claude Chief of Staff

Owns all outcomes across revenue, deals, platform, and content. Diagnoses highest-leverage actions, delegates to specialized subagents, and manages the full state file system.

Diagnosis: Revenue Impact × Urgency ÷ Effort

● ACTIVE — ALL SESSIONS

SALES

Sales Agent

MARKETING

Marketing Agent

PLATFORM

Litigation Sentinel

META / CCO

Code Optimizer

Owns active deal advancement, pipeline management, and all prospect-facing deliverables.

- Meeting briefs (48hr before calls)
- Demo packages & case data
- RFP responses (blue/red flag system)
- Prospect dossiers & research
- Follow-up email coordination
- Pipeline risk monitoring (>10d dark)

Pipedrive | Outlook | Fathom AI | Teams

Owns all outbound GTM execution — email campaigns, social, newsletter, and lead generation.

- Apollo email sequences (1K/week)
- Sales Navigator InMail cadences
- LinkedIn content (3 posts/week)
- Litigation Sentinel newsletter
- Lead magnet creation & distribution
- List building (Fortune 500 + Insurance)

Apollo | Sales Nav | LinkedIn | Beehiiv | Resend

Owns the full platform end-to-end — code, CI/CD, deployments, article publishing, and uptime.

- Next.js 14 + TypeScript development
- 4 routes: Home, Briefing, Council, Trial
- Vercel CI/CD & auto-deploy
- Article publishing pipeline
- Design system & mobile responsive
- Deployment monitoring & rollbacks

GitHub | Vercel | Next.js 14 | Framer Motion

Continuously audits workflows, researches new tools, and evolves the entire agent system.

- Process auditing & bottleneck ID
- Skills, hooks & MCP integration
- Memory file hygiene audits
- Post-mortem & failure analysis
- ROI simulation for new tools
- Auto-triggers on workflows >5 steps
